

ANTOR ADHIKARI

Full-Stack Web Developer

Kolkata, West Bengal, India · +91 83273299913 · antoradhihari1612@gmail.com
linkedin.com/in/antor-adhihari · github.com/Antor-Adhihari

PROFESSIONAL SUMMARY

Motivated and results-driven Full-Stack Web Developer with hands-on experience engineering responsive, secure, and highly scalable web applications utilizing the MERN stack. Adept at designing RESTful APIs, implementing robust authentication systems (Firebase, JWT), and developing stateful frontend architectures. Eager to contribute scalable, clean, and maintainable code to large-scale e-commerce solutions while advancing as a Software Development Engineer.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs
- **Database & Security:** MongoDB, MongoDB Atlas, Firebase Authentication, Google OAuth, JSON Web Tokens (JWT)
- **Tools & Deployment:** Git, GitHub, Postman, VS Code, npm, Vite, Vercel, Netlify
- **Core Competencies:** API Integration, CRUD Operations, Debugging, Protected Routes, Component Reusability

PRACTICAL EXPERIENCE

Independent Full-Stack Developer

Personal & Academic Development Projects

Ongoing
Kolkata, India

- Architected dynamic, end-to-end web applications utilizing the MERN stack, maintaining modular and easily scalable codebases.
- Engineered RESTful APIs utilizing Node.js and Express.js to facilitate seamless, low-latency data exchange between interfaces and backend systems.
- Secured application ecosystems by implementing robust OAuth (Google/Email) and JWT-based authorization mechanisms.
- Optimized database performance by designing structured MongoDB collections and executing efficient CRUD operations.
- Streamlined system reliability by systematically testing, troubleshooting, and resolving backend endpoints utilizing Postman.
- Maintained rigorous version control protocols and codebase integrity employing Git and GitHub for source-code management.

PROJECTS

ZapShift – Full-Stack Web Application

[Live Web](#) | [GitHub](#)

- Developed a comprehensive job and shift management platform integrating React.js, Node.js, Express.js, and MongoDB.
- Constructed secure RESTful APIs to seamlessly sync frontend client state with backend database operations.
- Strengthened data privacy by implementing Firebase Authentication and JWT middleware for precise route protection.
- Designed a mobile-first, highly responsive interface utilizing Tailwind CSS, ensuring optimal cross-device usability.

Fashion Photos – Photography Portfolio Platform

[Live Web](#) | [GitHub](#)

- Designed a high-performance photography portfolio platform employing React.js and modern CSS practices to showcase visual assets.
- Engineered modular, reusable React components for core application features (galleries, testimonials), reducing codebase redundancy.
- Integrated Firebase Authentication to enable seamless user registration logic and customized secure gallery access.

Cricket IPL Application

[GitHub](#)

- Built an interactive data-visualization platform for IPL cricket statistics utilizing React.js and structured JSON data.
- Implemented dynamic data rendering pipelines by heavily leveraging advanced JavaScript array methods (map, filter, reduce).

EDUCATION

Kalyani Government University – B.A. Graduate & Computer Science (Completed)

Nadia, West Bengal

HPD Institution, Government of West Bengal – Higher Secondary Education (Passed: 2025)

Nadia, West Bengal

CERTIFICATIONS & ADDITIONAL INFORMATION

- **Certification:** Full-Stack Web Development, *Programming Hero* – Acquired intensive hands-on experience in MERN stack architecture, advanced responsive design, API development, and deployment strategies.
- **Target Roles:** Software Development Engineer, Full-Stack Developer, Frontend Developer.
- **Languages:** Bengali, Hindi, English (Full Professional Proficiency).
- **Availability:** Available to join immediately.
